

# Background

August 2023 —

June 2021 — Three 'partners papers' – included a paper on Capacity Building

Capacity Building Stock-take for the CT countries completed. RoadMap development endorsed at SOM16 (2021):

Decision: 10.6 Acknowledged the objective to develop institutional capacity to support international commitment to protect the coastal and marine resources (e.g. CBD 30x30 and other international framework); 10. 7 Supported the development and implementation of a 10-year roadmap and partnerships to build human capital complementary to ongoing capacity building programs in the CTG; 10.8 Tasked the RS to establish a team with partners to conduct a regional capacity building assessment; and 10.9 Agreed to the development of innovative and cost-effective learning mechanisms for CTI-CFF that can be systematically scaled

Jan – May 2022 — Range of meetings held developing RoadMap vision, principles & pillars of work

May 2022 — RS & Strategic Partners hybrid meeting – RoadMap Pillars of work, categories & priorities refined

November 2022 — RoadMap recognized under SOM17

Decision: 10.4. Noted that the regional capacity building assessment will commence in Q1 of 2023

March 2023 — Support from SuFIA TS to further the RoadMap and prepare a three-year workplan

### 2030 RoadMap Vision

### RoadMap Pillars

To accelerate skills-building across the CT to sustain and effectively manage resilient marine and coastal resources and seascape ecosystem services, in support of the RPoA2.0 targets, benefitting nature and communities.

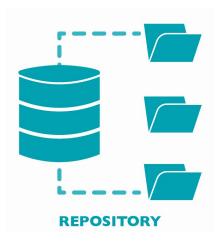

Pillar 1: Tools & Packages

Pillar 2: Catalysing Leadership

Pillar 3: Delivery on-the-ground

Pillar 4: Peer Learning

### Pillar 1: Tools & Packages

Online repository to support capacity building

- Coral Triangle Focused
- Dedicated to Capacity Building
- Accessible (low bandwidth, diverse languages\*)
- Dynamic and Semi-Interactive

Development of the CTC Academy for Online Learning

- Specifically targeted towards CT nations
- Available in CT ranging languages \*
- Focused on CT exemplars, case studies and practitioner needs.

#### Will Include:

- Library of resources (guidelines, case studies etc.)
- Directories for practitioners (of capacity providers, funding opportunities, learning networks)

Initially focused on self-taught courses = Free, independently doable in own study time, with automated test function and certification provided linked to registry

TWG 's to select one priority topic each for new course development

<sup>\*</sup> inc. English, Bahasa Indonesia, Malay, Tetun and Tagalog; with audio and video including Pidjin English, Tok Pisin, and Visayan

# Pillar 2: Systems for Catalysing Leadership

#### 1x CT Ambassador per CT country

#### WHO:

Young, emerging leaders (from communities, development / private sector), GenZ/Millenials, Influencers

#### TO DO WHAT:

Advance awareness about CT, promote RPoA2.0, be 'CT Envoys', generate support for region, media attention, funding support (regionally, globally)

#### **SUPPORTED BY:**

Training & skills-building (public speaking, CT awareness)

# Pillar 3: Delivery on-the-ground

Seascapes focused.

Collectives of 'Capacity Providers' (training organizations) in each seascape to:

- Collaborate, share and scale training materials (courses, syllabi, resource information), methods and approaches to training
- promote recruitment and training-oftrainers with wide-ranging language skills and cultural diversification
- optimize training delivery in priority areas
- Advance cross-learning between capacity providers
- Bring an economy of scale to training through collaboration.

An extension of learning site visits

Practitioners visit a site for 1 to 3 months

Join activities & on-site work

Focused on key learning topics (pre-identified)

## Pillar 4: Peer Learning

At least 1 (up to 2) learning sites per CT country in portfolio

#### May be:

- MPAs sites (e.g., CTMPAs), or
- other refugia areas (e.g., LMMAs, MMAs, OECMs etc.), or
- fishery management areas (e.g., FIPs, SSF /EAFM sites)

Learning Site Operationalization toolkit developed

Host agencies supported to lead and manage learning exchanges

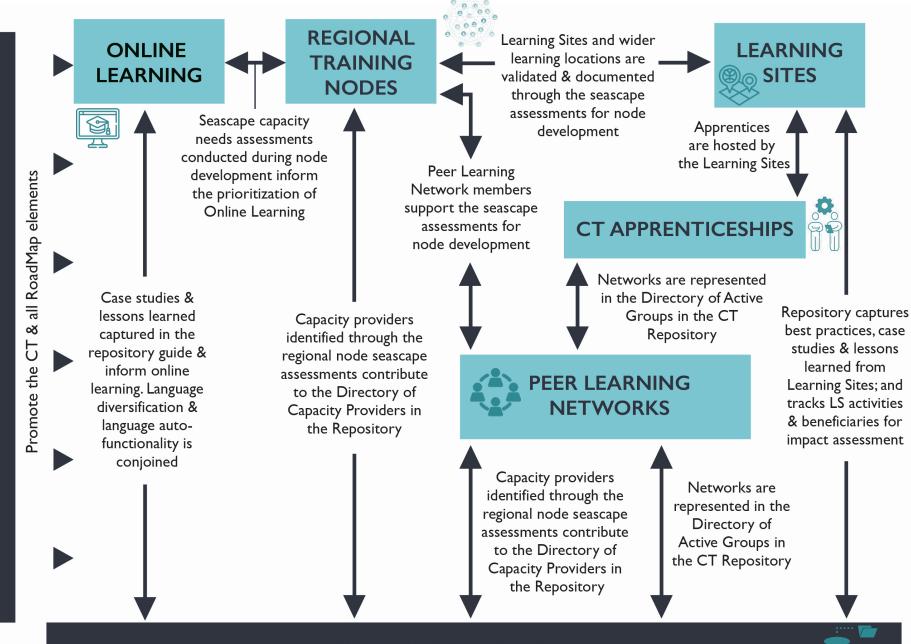

#### Three new networks:

- MPA Managers Network (MPAMN)
- CT Community Groups Network (CT-CGN)
- Young Marine Leaders Network (YLN)

### On-going support to existing networks:

- Women's Leaders Forum (WLF)
- MPA Learning Network (MPALN)
- Maritime Local Government Network (CTI-LGN)

All elements of the RoadMap are Inter-linked

**CT REPOSITORY** 

# Proposed Key Decisions

- 1. Acknowledged the efforts of partners, CTC and WWF-CTP, with support from USAID-RDMA SuFIA TS, in working with the RS to develop the CTI-CFF Capacity Building RoadMap
- 2. Acknowledged the extensive inputs from the CT6 in CTI-CFF Capacity Building RoadMap development that have been incorporated into the three-year workplan
- 3. Endorsed the vision of the CTI-CFF Capacity Building RoadMap 'To accelerate skills-building across the CT to sustain and effectively manage resilient marine and coastal resources and seascape ecosystem services, in support of the RPoA2.0 targets, benefitting nature and communities.'
- 4. Endorsed the three-year workplan of the RoadMap under the four pillars, and task RS to collaboratively ensure sustainability and achievement of the vision of the 2030 CTI-CFF Capacity Building RoadMap
- 5. Tasked the RS to establish a small team with partners to lead the implementation of the CTI-CFF Capacity Building RoadMap

# Thank you

### **CTI-CFF Capacity Building RoadMap**

Developed by the

**CTI-CFF Regional Secretariat** 

Through regional collaboration

With technical support from the Coral Triangle Center (CTC) and World Wildlife Fund Coral TriangleProgramme (WWF-CTP)

Supported by USAID-RDMA / SuFIA TS

Coordination and development support provided by Sustainable Solutions International Consulting (SSIC)
